18 MOOD CHAIRS WITH EU ECOLABEL

We are proud to have 18 Mood chairs with the EU Ecolabel. Our sustainable EU Ecolabel chair collection includes Mood 4-legs, Mood 4-legs armchair, Mood with and without upholstery, Mood conference and Mood learn.

EU ECOLABEL

The purpose of EU Ecolabel is to reduce the products overall environmental impact. In order to receive the EU Ecolabel, you have to look carefully at all steps in the products life circle and improve the environmental challenges that emerge along the way. All parts such as, screws, glue, wheels, armrest, steel, textile, shells etc. has to be accepted by Ecolabelling Denmark in order to receive EU Ecolabel.

Disposal. Recycling or end of life

A Mood chair can easily be separated into fragments. With only few tools, metal, aluminum, fabric and foam can be separated for easy waste management. All parts can go into a circular process and be reused again and again. See guidance for disassembly.

https://res.cloudinary.com/randers-radius/image/upload/v1590417587/RR/Miljo_scan.pdf

Polymere

The Mood shell is made from PP 100% upcycled material. The source is plastic waste from the European car industry i.e. dashboards, handles and other black cover parts.

Minor nylon parts such as castors and armrests are made of virgin materials.

To help identify plastic products for subsequent decisions concerning handling, waste recovery or disposal we mark, according to ISO 11469. Armrest are made in PA6 nylon without any marking because of aesthetic reasons. The Mood chair is without any biocidal compounds.

Use of product

The Mood programme is a long-life seating product for public environment areas, and ideal for eating, meeting, learning and socializing. Look at our homepage www.randersradius.dk for further inspiration. Mood is suited for indoor use.

EN standards / Test

Mood comply the following tests:

EN 1729-1 functional measurement

EN 1729-2 strength - highest level.

EN 16139 strength - L2 highest level

Test reports available at our homepage www.randersradius.dk

Quality approved by Danish Furnituremakers Quality Control

Maintenance and cleaning

The mood series is resistance to all common cleaning. No restrictions.
See our maintenance and cleaning instruction for Mood at:

https://res.cloudinary.com/randers-radius/image/upload/v1597050804/Cleaning_instructions_Mood_RR_cph0rb.pdf

Warranty

According to our general sales & delivery terms, Randers+Radius grant an extended guarantee on 5 years on the Mood programme. The guarantee covers broken frames and damage due to faulty workmanship subject to normal use of the product.

Spare parts

Mood has only a few parts that could be worn out but plugs and glides could be needed. However, all spare parts that are included in the Mood Series are available by contacting our sales department.
